RESOURCE SPOTLIGHT

Do you want to start reading your bible more consistently, but don't know where to start? Or maybe you struggled to see the bigger picture of scripture while reading individual passages? We recommend The Bible Recap, which is a simple bible reading plan that has an accompanying podcast and written notes! The reading plan is in chronological order, meaning its not Genesis through Revelation; it will be roughly in the order that the events took place or letters written. This helps to see God's plan for redemption from the moment of creation!
